# xKingNFTx: Revolutionizing NFTs on the MultiversX Blockchain

## *Abstract:*

The xKingNFTx project represents a pioneering initiative within the NFT space, aiming to redefine the utilization of Non-Fungible Tokens (NFTs) on the MultiversX blockchain. By leveraging innovative approaches, strategic gamification elements, and a commitment to community-driven value creation, xKingNFTx has successfully launched multiple NFT collections, each with unique designs and exclusive benefits. This whitepaper provides an in-depth overview of the xKingNFTx ecosystem, its mission, and the groundbreaking features that set it apart in the rapidly evolving world of blockchain and NFTs.

## **1. Introduction**

xKingNFTx is a community-centric project dedicated to generating value and financial gains for its members. Built on the MultiversX blockchain, the project introduces a novel approach to NFTs by integrating a deck-building game concept. Each NFT collection released by xKingNFTx contributes to a synergistic ecosystem, where holding strategically valuable NFTs enhances one's chances of success in future collections.

## **2. Ecosystem Overview**

### ***2.1 NFT Collections : The Deck Building***

The Apedragons, xWomen, xPirates, and xAliens collections collectively form the foundational pillars of the xKingNFTx ecosystem. Each collection brings a unique thematic experience and a distinct set of benefits that synergize to create a dynamic and immersive journey within the MultiversX blockchain.

#### ***2.1.a Synergistic Power of Collections***

The strength of xKingNFTx lies in the seamless synergy among its four pillar collections. By strategically holding NFTs from Apedragons, xWomen, xPirates, and xAliens, users unlock cumulative benefits that extend far beyond the individual collections. These synergies are designed to empower the community and enhance the overall value proposition of each NFT.

#### ***2.1.b Cumulative Benefits and Discounts***

The cumulative benefits provided by the pillar collections serve as a cornerstone feature of xKingNFTx. Holders can strategically accumulate NFTs from different collections, enjoying a substantial reduction of up to 40% in the minting cost for all subsequent collections—a lifelong

advantage. This unique approach ensures that early adopters and long-term supporters continually reap the rewards of their commitment to the xKingNFTx ecosystem.

<b>Apedragon</b>	<b>xWomen</b>	<b>2 xPirates</b>	<b>Discount for next mints</b>
X			20%
	X		10%
		X	10%
X	X		30%
X		X	30%
	X	X	20%
X	X	X	40%

The xAliens Collection introduces an unique advantage within the xKingNFTx ecosystem by doubling the wallet limit for minting. This strategic feature empowers holders to optimize their discounts effectively, providing an enhanced opportunity to capitalize on the advantages offered by the xKingNFTx ecosystem.

## **2.2 xKraken : The shareholders NFTs**

The xKraken Collection represents the pinnacle of xKingNFTx, offering a unique opportunity for holders to become true project shareholders. Owning xKraken NFTs unlocks exclusive benefits, most notably a monthly airdrop of all project profits. The more xKraken NFTs you hold, the larger your share, and consequently, the more significant your monthly airdrop.

### **2.2.a Airdrop Mechanics**

Holders of xKraken NFTs are entitled to a monthly airdrop that constitutes their share of the project's profits. The distribution is directly proportional to the number of xKraken NFTs owned, encouraging holders to accumulate and retain these special NFTs for increased benefits.

### **2.2.b Profit Generation Mechanisms**

**Royalties:** - 100% of royalties from all xKingNFTx collections contribute to the xKraken profit pool. This ensures that the success and popularity of each collection directly translate into financial rewards for xKraken holders.

**Staking Rewards:** - Profits from staking activities conducted through the project wallet are channeled into the xKraken profit pool. Staking serves as an additional revenue stream, further enhancing the financial sustainability of the xKraken Collection.

**Investments and Partnerships:** - The xKingNFTx project engages in strategic investments through partnerships and token holdings. Profits generated from these ventures directly contribute to the xKraken profit pool, amplifying the benefits for xKraken holders.

**New Collection Profits:** - As xKingNFTx continues to launch new and exciting collections, the profits generated from these releases are directed to the xKraken profit pool. This ensures that xKraken holders participate in the success of the entire xKingNFTx ecosystem.

### 2.3 xPandas : Play to earn collection

The xPandas collection represents a Play-To-Earn (P2E) experience with NFTs. This game is developed by our partners, the AntsGame Team, accessible at <https://dashboard.elrond-ants.club>, the game hosts weekly contests where players can vie for a share of the \$2.9 EGLD prize pool. The top 5 players are guaranteed prizes, and four players within the top 15 will be randomly selected for additional rewards through our raffle.

xPandas stands out as the premier collection for both enjoyment and the chance to earn weekly rewards by actively participating in the AntsGame. Additionally, exclusive giveaways in our Discord are reserved solely for xPandas holders. The more xPandas you hold, the greater your bonus entries for these exciting giveaways.

### 2.4 Xvolution : \$xKING generator

Xvolution consists of four distinct collections, ranging from Level 1 to Level 4. Design are eggs which are hatching until level 4. Previously, participants had the chance to upgrade their eggs from Level 1 to Level 4 using a system that reduces the number at each step. However, this upgrading process has been stopped, meaning an egg at Level 1 will stay at Level 1 indefinitely. Depending on their level, each egg can earn a certain amount of \$xKING every day when they are placed in our decentralized application (dApp).

The daily earnings are as follows:

- Level 1 eggs earn 100 \$xKING
- Level 2 eggs earn 200 \$xKING
- Level 3 eggs earn 400 \$xKING
- Level 4 eggs earn 800 \$xKING

### 2.5 xSIEGE & xCHIEFS : Extend benefits outside of xKingNFTx

The xSIEGE and xCHIEFS collections were created to offer advantages within our partner projects. If you collect 8 NFTs from the same xSIEGE family, you can recruit a xCHIEF. This allows you to access discounts on minting in other projects, essentially giving you the power to 'besiege' these projects with special offers. Owning these collections guarantees our members the best discounts available not only within the MultiversX ecosystem but also in projects beyond it. This ensures that our holders can enjoy significant savings and benefits across a wide range of projects.

In order to be eligible to be besieged, a partner project must sweep the xSIEGE collection, in order to permit to xCHIEF to mint its collections. This strategy assure volumes on xSIEGE and royalties, visibility for xKingNFTx & the project besieged, and discounts for our xCHIEFS holders

## 3 \$xKING: Empowering the xKingNFTx Ecosystem

### 3.1 \$xKING Token Overview

\$xKING stands at the core of the xKingNFTx ecosystem, serving as the native utility token that unlocks a plethora of benefits for its holders. This dynamic token plays a pivotal role in the evolution of the Xvolution collection, offers avenues for community engagement, and facilitates seamless participation in the broader xKingNFTx universe.

### 3.2 Staking and Farming

Users can farm \$xKING by staking their Xvolution collection, providing an avenue for passive income within the xKingNFTx ecosystem. This not only enhances the economic model of the project but also fosters active participation from the community.

### 3.3 Evolving Xvolution Eggs, Recruiting xCHIEFS

Holding \$xKING tokens permits users to evolve NFTs from our collections, thereby improving their staking rewards or improving their benefits. This gamified feature incentivizes long-term engagement and strategic decision-making within the xKingNFTx ecosystem, enhancing the overall user experience.

### 3.4 Real-World Engagement

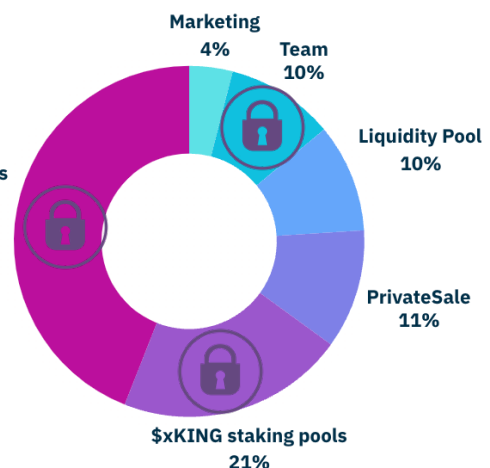

TBD

### 3.5 Partner NFTs and Fair Minting:

The versatility of \$xKING is further exemplified by its role in acquiring NFTs from project partners. Holders can use \$xKING to explore and obtain unique NFTs from collaborative ventures, enriching their NFT portfolios and supporting the broader blockchain community. Additionally, \$xKING enables users to mint new collections at a fair price, ensuring accessibility and inclusivity within the xKingNFTx ecosystem.

### 3.6 Tokenomics

- Marketing**  
Daily games and contests to engage the community and partners
- Team**  
Value locked for the team member.  
Vesting SC during 2 years
- Liquidity Pool** **Xvolution Staking Pools**  
Amount used to fill liquidity pool in **44%** xExchange
- Private Sale**  
Opportunity for holders to accumulate \$xKING at a fair price before the listing
- \$xKING Staking pools**  
Value locked for \$xKING staking pool for holders
- Xvolution Staking Pools**  
Value locked for \$xKING staking pool for holders

The supply is capped à 1 000 000 000 \$xKING. The 44% of staking rewards will be distributed to stakers consistently over the two-year period. By releasing rewards every 6 seconds, xKingNFTx ensures a fair and continuous distribution, providing a steady income stream for participants engaged in the staking pools. This mechanism aligns with the project's commitment to rewarding its community while minimizing potential market impact from large, sudden releases.

To further align the interests of the team with the long-term success of the xKingNFTx project, the team's portion will also be subject to a one-year lock. The team allocations will be distributed monthly through a vesting smart contract. This ensures that the team's involvement in the project is sustained, and their incentives remain closely tied to the ongoing success and development of xKingNFTx.

### 3.8 Burn Mechanism

To enhance the scarcity and value proposition of \$xKING, a burn mechanism will be implemented. TBD

### 3.9 Staking Pool Auto-Fill

A key component of this buying pressure initiative is the automatic allocation of the purchased \$xKING tokens to fill the staking pools of Xvolution. The same as a part of NFTs sales from partners will permits to fill the staking pools. By directing the acquired tokens into the staking pools, xKingNFTx ensures a continuous cycle of reward distribution to stakers. This not only benefits individual token holders but also strengthens the staking mechanism, fostering community engagement and participation.

### 3.9 Token Design

### **3.10 Enhancing Token Value**

The consistent monthly buying pressure on \$xKING tokens serves as a mechanism to enhance the token's intrinsic value. As the demand for \$xKING increases through regular purchases, the scarcity of the token in the market is accentuated, potentially leading to positive price trends. This initiative aligns with the project's commitment to creating a robust and valuable token that resonates with the broader cryptocurrency community.

## **4 Roadmap : Strategic Growth within the MultiversX Ecosystem**

### **4.1 Vision for Continued Development**

Looking forward, xKingNFTx remains committed to persistent development, crafting innovative and intelligent strategies for expansion within the MultiversX blockchain and universe. Our journey is one of continuous evolution, leveraging strategic initiatives to remain at the forefront of this dynamic landscape.

### **4.2 Diversification through Multiple NFT Collections**

Our roadmap unfolds with the introduction of several captivating NFT collections, each meticulously designed to engage and inspire our community. These collections will seamlessly integrate the benefits of their predecessors, allowing for streamlined minting processes. This interconnected approach not only enriches our ecosystem but strategically amplifies profits, benefiting both our beloved holders and shareholders, particularly our esteemed xKraken community.

### **4.3 Profit Amplification as the Primary Goal**

At the core of our journey is an unwavering commitment to profit amplification for all our stakeholders. By deploying astute strategies, we will direct revenues generated from NFT sales, royalties, staking, and new collections back into the ecosystem. This deliberate approach aims to enhance the value of our \$xKING token, ensuring sustained growth and prosperity for our cherished community and dedicated xKraken shareholders.

### **4.4 Nurturing Our Holders and Shareholders**

At the heart of xKingNFTx's roadmap is an unwavering commitment to maximizing profits for our valued holders. Our strategic initiatives are meticulously designed to elevate the appeal of all our collections, creating an environment that not only generates hype but also enhances the resale value of these NFTs. By aligning our efforts with the financial success of our community, we aim to provide unparalleled value to every holder within the xKingNFTx ecosystem.

## **5. User-Centric Engagement**

As we progress, user engagement remains a pivotal focus. Initiatives for active involvement, feedback loops, and immersive events will be integral to our approach. By fostering a collaborative environment, we ensure that our community and shareholders actively contribute to shaping the trajectory of xKingNFTx, enriching its vibrant evolution.

## Conclusion

xKingNFTx redefines NFT engagement with diverse collections, strategic synergies, and the versatile \$xKING token. From cumulative benefits to xKraken shareholder perks, and through Deckbuilding mechanism, P2E xPandas, and \$xKING the project ensures a dynamic and rewarding experience. Locked staking rewards and team allocations contribute to long-term stability, while a visionary roadmap promises continual innovation. xKingNFTx maximizes profits, creating hype for better resale values and generously sharing returns with its vibrant community. In a rapidly evolving blockchain landscape, xKingNFTx stands as a beacon of innovation, community empowerment, and sustained growth.
